### Phytéo Laboratoire: INNOVATION & EXPERTISE IN PETCARE

The Petcare market is booming, driven by a growing demand for natural, functional, and tailored nutrition for companion animals. At Phytéo Laboratoire, we combine years of expertise in nutrition and formulation with cutting-edge manufacturing capabilities to develop high-quality pet supplements aligned with these key trends:

#### + Scientific Innovation & Regulatory Mastery

We ensure our products comply with the highest European standards:

- Hygiene & safety (CE 183/2005) – Secure production processes.
- Nutritional additives (CE 1831/2003) – Only authorized and effective ingredients.
- Labeling & composition (CE 767/2009) – Transparency & consumer trust.
- High-quality raw materials (EU 68/2013) – Natural & traceable sourcing.

#### + A secure, controlled manufacturing process

We apply rigorous Good Manufacturing Practices (GMP) and strict quality control, guaranteeing total traceability:

- Optimized raw materials management with appropriate certifications (WADA if required).
- Precise HACCP protocols to ensure product safety and hygiene.
- Strict segregation or dedicated lines depending on the materials used.
